Please note that you **DON'T** need to buy all of these different brands:

Flamingo Moon Dance

In place of the resin, you can use a high gloss sealer of choice, or even a low gloss. It won't have the same look and feel to the finished piece, but it will still be amazing! Keep in mind, many of these items, if you do purchase them, will last you a very long time. I tried my best to keep the expense down by suggesting optional items. You do not need to use the Open Paints; they are like 10 bucks each… ***COUPONS…LOTS AND LOTS OF COUPONS…LOL***

You will have lifetime access to this class as long as my site exists. You will also be able to download the videos to watch at your leisure!

Enjoy making your dancing flamingos!
